## Lifty - the manure slide lifter

### Efficiency and working comfort with Lifty

Lifty removes manure slides and plugs without causing physical strain. What used to be hard work can now be done with Lifty in a way that is easy on the back and motorized.

Place the tripod over the manure slide or plug, clip the hooks and lift the plug or slide at the touch of a button.

*In some stables the manure slides are positioned very close to the wall. One leg of the Lifty tripod can be removed by means of a quick release fastener so that Lifty leans directly against the wall and thus can also pull up wall-mounted slides.*

Lifty is easy to carry and can be used mobile at any place.

Lifty	
LxWxH (mm)	345 x 285 x 980
Height with spindle	1100 mm
Lifting force	1.000 N
Lifting height	750 mm
Weight (kg)	6,32 incl. hook, without battery
Hook length	2 x 300 mm 1 x 820 mm

#### In brief:

- Convenient manure slide and plug lifting with more health and safety.
- Long-life spindle-type lifting gear, floating, thus ensuring function even with a slightly off-set pull.
- Standard battery for lifting up to 200 slides or plugs.
- Hook set for slides, plugs and deep plugs.
- Key switch for lifting and lowering.
- Deep discharge protection for battery.
- Electric box in housing moisture protected.

Status 10-22/WAW/Subject to technical modifications
