INNOVATION

Transporker - comfortable carcass transport

Back-friendly and hygienic

Transporker allows the user to pick-up fatteners on the spot, without touching and without effort, and to move the carcass trouble-free to the disposal site.

hygienically advantageous way to the carcass disposal site.

In an upright body position, the operator fixes the animal to the pull rod using the loop. He pulls the carcass over the ramp which is equipped with an integrated wide roller to place the animal on the slide. This pull rod can also be used to pull the maneuverable Transporker in a

Transporker

LxWxH (mm)	950 x 345 x 155
Length pull rod	900 mm
Clearance height	30 mm
Material	Stainless steel
Weight	9 kg

Transporker is space-saving and easy to hang on the wall of the stable. The pull rod can be stored on the handles.

Pull rod with catch loop. The loop is easy to put on while standing.

Due to low net weight, Transporker can be easily and quickly carried anywhere.

In brief:

- The pull rod is used to reach into the side slots and to lift the Transporker so that the animal slips off the slide at the carcass site
>> no need to touch the pig.
- Smart design: when collecting the pig, stability is achieved by ground contact of the beveled front plate.
- Made entirely of durable, hygienic stainless steel.
- 2 front swivel castors, 2 rear castors, only 35 cm wide
>> fits through any aisle and around every corner.
